

LAC-DES-SEIZE-ILES NEWSLETTER – SEPTEMBER 2023

HAZARDOUS HOUSEHOLD WASTE (HHW)

I our last newsletter, we had announced that the

collection of HHW had been suspended temporarily. We are happy to report you that the service has been restarted albeit with some changes. When you want to get rid of your HHW, you will have to make an appointment with the municipality to meet a

municipal employee during business hours. The collection bins that were located next to the semi-buried containers have been moved as they were close to a watercourse that connects to the lake. Many times in the past, paint or oil containers that were not properly sealed were dropped off and their content could have leached into the water... Protecting our lake is at the heart of this initiative.

MRC CALENDAR OF SCHEDULED COLLECTIONS

The collections calendar that was sent to you with your tax bill in January 2023 was incomplete... Here's why: the MRC was in the midst of a call for tender. Below, the schedule for the last 4 months of 2023.
